# Course List: Credit Recovery

## 2023 - 2024 School Year

*Credit Recovery courses provide students the opportunity to recover credits, while building their own pathways to learning, in an abridged, performance-based experience. In these courses, students can demonstrate mastery by testing out of lessons, allowing them to focus on the material that they still need to learn. Credit Recovery courses require limited teacher involvement and are mainly driven by the students themselves. Unless otherwise noted, all one credit courses can be purchased as full year or by individual semester.*
